PROFESSIONAL SUMMARY

Full-stack software engineer with a BSc in Computer Science and hands-on experience designing server-side systems, RESTful APIs, and responsive user interfaces. Proficient across the stack: PHP, Laravel, Python, Django, NodeJS Express and DRF on the backend; React, Next.js, Vue.js, Angular and TypeScript on the frontend; MySQL for relational database design. Mentored 20+ developers and delivered 30+ workshops. Currently seeking a Software Engineering role to build robust, scalable, end-to-end products.

EDUCATION

ITI Diploma — Open Source Track (9 Months) 2025 – Present
Information Technology Institute (ITI), Mansoura

- Covered PHP/Laravel, Python/Django, MySQL, Linux administration, Apache/Nginx, DevOps fundamentals, and agile methodologies.
- Hands-on project-based training in front-end technologies (HTML5, CSS3, JavaScript, React/Vue), back-end frameworks, database design, version control (Git), and system administration — preparing for real-world software development roles.

Master of Science in Computer Science 2024 – Present
Mansoura University

Frontend Development Diploma 2023 – 2024
Route Academy

- Intensive track covering React, Next.js, TypeScript, Tailwind CSS, and modern JavaScript patterns.

Bachelor of Science in Computer Science Sep 2019 – May 2023
Mansoura University

- Cumulative GPA: 3.61/4.0 (Very Good) — Top 15% of graduating class
- Graduation Project: *D-Pathy* — AI-powered diabetic retinopathy detection app; awarded Excellent grade.
[Code] [Demo]

PROFESSIONAL EXPERIENCE

Frontend Mentor — React / Next.js — *Route Academy* Sep 2024 – Present

- Mentored 20+ students weekly on React and Next.js, maintaining a 90%+ assignment-completion rate.
- Delivered 30+ live workshops on hooks, server components, state management, and performance optimisation.
- Reviewed student code submissions, reducing repeated errors by approximately 40% over two semesters.

WordPress Developer — *Ave Events* Sep 2024 – Sep 2025, Full-Time

- Managed server-side configuration and maintenance of 5+ WordPress sites with 99%+ uptime.
- Reduced average page load time by 25% through server caching, query optimisation, and plugin auditing.
- Resolved 15+ critical backend and security issues, applying patches within 24 hours of discovery.
- Configured Apache-based hosting environments and managed MySQL databases for all properties.

PROJECTS

Clinic Appointment System *Python, Django, DRF, MySQL, Bootstrap 5, Chart.js* [Code]

- Architected a multi-role platform with RBAC for 4 roles, automated slot generation, patient self-booking, appointment state machine, queue management, and EMR with prescriptions & lab tests.
- Built admin analytics dashboard with Chart.js (revenue, no-show rates, peak hours), CSV report exports, RESTful API for appointment CRUD, and in-app notifications for all events.

Cafeteria Management System *PHP, Custom MVC, MySQL (PDO), Bootstrap, Apache* [Demo] [Code]

- Built a production-grade platform from scratch using a custom PHP MVC framework with Composer autoloading, PDO database abstraction, and environment-based configuration — no external framework.
- Developed the full Admin Orders module with order lifecycle management, database transaction handling, and secure input validation deployed on Apache.

Hotel Management System *Laravel, Vue, Inertia.js, MySQL, Stripe, Tailwind CSS* [Demo] [Code]

- Built a full-scale hotel management platform with RBAC for Admins, Managers, Receptionists, and Clients.
- Implemented reservation workflows, room/floor allocation, and Stripe payment processing.
- Used Spatie Laravel Permission for granular role management across two isolated dashboards with separate authentication guards.

Linked Posts — Social Media App *React, REST API* [Demo] [Code]

- Built a social networking app with user profiles, post feed, likes, comments, and a follow system.
- Implemented JWT-based authentication and real-time updates within a fully responsive React architecture.

AI Chat Clone *React, Tailwind CSS, Express, Hugging Face API, Supabase, Whisper* [Demo] [Code]

- Built a full-featured AI chat app with 5 conversation modes (General, Coding, Reasoning, Creative, Image Gen), real-time token-by-token streaming via SSE, voice input with Whisper transcription, PDF/image file attachments, and FLUX.1-schnell image generation.
- Implemented token tracking with color-coded status, context management with automatic history trimming, prompt injection safety filtering, Supabase session persistence, dark/light theme, and a mobile-responsive adaptive layout with swipeable sidebar.

TECHNICAL SKILLS

Backend: PHP, Laravel, Python, Django, DRF, RESTful API Design, odoo, Express.js

Frontend: React, Next.js, Vue.js, Angular, TypeScript, JavaScript (ES6+), Tailwind CSS, Bootstrap, SASS

Databases: MySQL, PostgreSQL, Eloquent ORM, MongoDB

Server & DevOps: Linux, Apache, Nginx, Git / GitHub, CI/CD basics, Docker

Tools: Figma, Postman, Browser DevTools, Lighthouse, AI-assisted dev tools

HONORS & ACHIEVEMENTS

- **Silver Medal** — Huawei ICT Competition 2022 (national-level technical competition).
- **CIS College Team Member** — Contributed backend development (Laravel) and multimedia production for Hack Your Future 3 & 4.

LANGUAGES

Arabic — Native

English — Conversational (Reading, Writing, Listening & Speaking)
